About Me

As a versatile full-stack engineer and strong problem solver, I am dedicated to delivering impactful user experiences. My expertise lies in designing and architecting front-end solutions, as well as back-end development. I am well-versed in the latest front-end and back-end technologies and am always eager to learn more. I believe in leveraging technology to create positive impacts, smooth user experiences, and prioritize security for web users. With expertise in web development and a strong self-starter mindset, I am confident in my ability to build innovative projects that promote enhanced user experience, privacy, real-world interoperability, and digital freedom.

Education

DigitalCrafts - Full-Stack Web Development, Computer Software Engineering

Mar 2023 - Jul 2023 (17 Weeks Full-Time Remote)

DigitalCrafts is a premier coding bootcamp where I became skilled in front-end (HTML, CSS, JavaScript, React, Next.js) and back-end (Node.js, Express.js) technologies, utilized APIs, and gained experience with Passport.js for authentication and Socket.io for real-time communication. Furthermore, I worked extensively with PostgreSQL databases using Sequelize.js and honed my version control skills with Git. This intensive program emphasized hands-on projects, agile methodologies, and pair programming, equipping me with practical experience building responsive, data-driven applications.

Experience

Co-Founder, DeFi Fluent

May 2022 - Dec 2022

- I co-founded an online platform for educating crypto newcomers on decentralized finance, complete with quizzes and reading content.

Social & Community Growth Lead, ShapeShift

Nov 2021 - Jul 2022

- Led a team of four in community development efforts, facilitated product development through marketing, partnerships, and community engagement.

Social & Community Growth Lead, The ICHI Foundation

Apr 2021 - Apr 2022

- Led community engagement efforts, managed social media accounts, assisted online investors within ICHI's DeFi ecosystem, and helped grow the protocol.
- Played an important role in assisting the protocol to grow to over \$70 million from a seed phase value of around \$5 million
