Portfolio:

About Me

Dedicated full-stack software engineer proficient in front-end design, server-side logic, and back-end routing/debugging. I have a passion for decentralized finance and the transformational potential of blockchain technology. Looking to utilize my strengths in web development and deep understanding of blockchain technologies to contribute to the evolution of the decentralized digital economy and make a positive impact in a DeFi/Crypto organization.

Skills

- **Programming:** JavaScript, HTML, CSS, React, Node.js, Next.js, Express.js, Sequelize.js, Socket.io, APIs
