About Me

Dedicated full-stack software engineer proficient in front-end design, server-side logic, and back-end routing/debugging. I have a passion for decentralized finance and the transformational potential of blockchain technology. Looking to utilize my strengths in web development and deep understanding of blockchain technologies to contribute to the evolution of the decentralized digital economy and make a positive impact in a DeFi/Crypto organization.

Skills

- **Programming:** JavaScript, HTML, CSS, React, Node.js, Next.js, Express.js, Sequelize.js, Socket.io, APIs
- **Tools & Platforms:** Git, PostgreSQL, Tailwind CSS, Chart.js, Passport.js, npm, Yarn
- **Blockchain & DeFi:** Research, Crypto newcomer education, DeFi protocol growth
- **Other:** Product Development, Project Start-up, Partnerships, Community Development, Community Management, Coaching

---

Projects

Next.js Portfolio | github.com/ETH1Elohim/portfolio-nextjs | Front-End Next.js Portfolio Site
  + Tech: React | Next.js | Tailwind CSS | Yarn
  + My portfolio represents my proficiency in front-end development and demonstrates my ability to create visually appealing and responsive websites.

Box Buddy | github.com/ETH1Elohim/boxBuddy-fullstack | Full-Stack Mobile Fitness App
  + Tech: JavaScript | Tailwind CSS | Node.js | Express.js | Sequelize.js | PostgreSQL | Passport.js | bcryptjs | Cookie Session | Beekeeper | Cloudinary | Multer | API-Ninjas
  + Box Buddy delivers a dynamic and interconnected experience for users to create accounts, personalize profiles, create posts, track personal records, connect with friends, and engage with friends in the community.

Hermes App | github.com/ETH1Elohim/front-end-project | Front-End Crypto Trading App
  + Tech: JavaScript | HTML | CSS (Flexbox) | Chart.js | Coingecko API | Google News API
  + Hermes App offers accurate trading conversions, price charts, news articles, and a portfolio tracker, providing users with a realistic and engaging cryptocurrency experience.

Odesza Forum | github.com/ETH1Elohim/band-website | Front-End Forum with Socket.io
  + Tech: JavaScript | CSS (Flexbox) | Express.js | Socket.io
  + The combination of Express.js, CRUD operations, and Socket.io highlights my understanding in creating dynamic functionality and smooth user experiences.

Blackjack Game | github.com/ETH1Elohim/blackjack-game | Front-End Logic-Based Game
+ Tech: JavaScript | HTML | CSS (Flexbox)
+ My Blackjack Game demonstrates my ability to create interactive and dynamic user experiences, implement game logic, and handle real-time data updates.

Education

DigitalCrafts - Full-Stack Web Development, Computer Software Engineering
Mar 2023 - Jul 2023 (17 Weeks Full-Time Remote)

DigitalCrafts is a premier coding bootcamp where I became skilled in front-end (HTML, CSS, JavaScript, React, Next.js) and back-end (Node.js, Express.js) technologies, utilized APIs, and gained experience with Passport.js for authentication and Socket.io for real-time communication. Furthermore, I worked extensively with PostgreSQL databases using Sequelize.js and honed my version control skills with Git. This intensive program emphasized hands-on projects, agile methodologies, and pair programming, equipping me with practical experience in building responsive, data-driven applications.

Experience

Co-Founder, DeFi Fluent
May 2022 - Dec 2022
● Co-founded an online platform for educating crypto newcomers on decentralized finance, complete with quizzes and reading content.

Social & Community Growth Lead, ShapeShift
Nov 2021 - Jul 2022
● Led a team of four in community development efforts, facilitated product development through marketing, partnerships and community engagement.

Social & Community Growth Lead, The ICHI Foundation
Apr 2021 - Apr 2022
● Led community engagement efforts, managed social media accounts, assisted online investors within ICHI's DeFi ecosystem and helped grow the protocol.
● Played an important role in assisting the protocol to grow to over $70 million from a seed phase value of around $5 million
